Dear Ms. Dortch:

On April 5, 2011, Andrea Pierantozzi, Mack Greene and the undersigned, of Level 3 Communications ("Level 3") and John Nakahata of Wiltshire Grannis, counsel for Level 3, spoke via conference call with Victoria Goldberg and Marcus Maher of the Wireline Competition Bureau regarding how Level 3, as a general matter, both routes and charges for VoIP traffic that traverses its network. The discussion was in response to questions presented to Level 3 regarding: 1) the overall picture of how Level 3 manages VoIP interconnection over its network and 2) how Level 3 generally charges for VoIP traffic that is handled over its network. The routing of and associated mechanisms for handling this traffic varies with whether the customer contracts with Level 3 to handle outbound or inbound traffic, as well as other factors such as where and how the customer wants to accept delivery of traffic from, or deliver traffic to, Level 3.

As required by Section 1.1206(b), this *ex parte* notification is being filed electronically for inclusion in the public record of the above-referenced proceeding. Please direct any questions regarding this matter to the undersigned.

Sincerely,

/s/ Erin Boone
